Company Name: SPK Integrity
Serving customers with Trust !

Overview

About Us

Established as a multi-disciplinary solutions provider, **SPK Integrity** bridges the gap between digital design and physical infrastructure. We specialize in the sales, implementation, and support of world-class **CAD Software**, alongside comprehensive rental/sales and maintenance services for **Power Backup Systems** (UPS, Inverters, and Batteries).

Our Commitment

In the fast-evolving landscape of 2026, we empower our clients by providing the tools they need to create and the power they need to remain operational 24/7.

Core Values

- **Integrity:** Transparent dealings in software licensing and service contracts.
- **Innovation:** Bringing the latest AI-integrated CAD tools to the Indian market.
- **Uptime:** Ensuring zero downtime for our clients through robust power solutions.

Multi-Brand CAD Software Solutions

Empowering the Next Generation of Design

SPK Integrity is an authorized partner for leading global CAD brands and AEC solutions. We provide end-to-end support—from initial consultation and licensing to advanced technical training.

Our Software Portfolio (2026 Editions)

- **GstarCAD :** Specialized offerings for **AEC industry**.
- **Autodesk Solutions:** Authorized sales for **AutoCAD 2026** and sales partner for **Revit**, featuring the latest Generative Design and AI automation modules.
- **Specialized Tools:**
  - Civil/Structural & Architecture
  - SketchUp Pro

Service Offerings

1. **Software Audits:** Ensuring 100% license compliance to avoid legal risks.
2. **Implementation:** On-site and cloud setup for distributed design teams.
3. **Training & Support:** Expert-led workshops on 2026 software features and AI-driven workflows.

SPK Integrity

Power Solutions – UPS, Inverters & Batteries

Mission-Critical Infrastructure

Design and production environments cannot afford power fluctuations. SPK Integrity provides high-performance power backup solutions tailored for IT parks, manufacturing units, and corporate offices.

Product Sales & Rentals

- **Online UPS Systems:** Ranging from 1 KVA to 500 KVA. Available for immediate rental or long-term lease to manage capital expenditure.
- **Industrial Inverters:** Robust backup for heavy machinery and sensitive laboratory equipment.
- **Advanced Battery Tech:** High-capacity SMF and Tubular batteries from brands like **Exide**, **Amron**, and **Luminous**.

Rental Advantage

Our flexible rental model is designed for 2026 business needs:

- **Zero Capex:** High-end power backup without the initial investment.
- **All-Inclusive Maintenance:** Monthly rental covers all routine servicing and part replacements.
- **Scalability:** Easily upgrade your power capacity as your business grows.

SPK Integrity

Technical Services & Support Excellence

Comprehensive Support Model
We don't just sell; we sustain. Our 2026 service framework ensures that both your software and hardware function at peak efficiency.

Hardware Services (UPS/Batteries)

- **24/7 Emergency Support:** Dedicated on-site technicians for power emergencies.
- **Preventive Maintenance (AMC):** Scheduled health checks to maximize battery life and UPS efficiency.
- **Load Testing & Audits:** Analyzing your facility's power requirements to optimize energy consumption.

Software Support (CAD/IT)

- **Version Upgrades:** Seamless transition to the latest 2026 software patches and releases.
- **Customization:** Tailoring CAD environments with custom macros and plugins to suit your specific engineering workflows.
- **Cloud Integration:** Helping teams move to secure, cloud-based design repositories.

Take the first step toward a more efficient future.
